TO: Minerals File

FROM: Tom Munson, Senior Reclamation Specialist *TM*

RE: Site Inspection, The Bug House (Loy Crapo), Treasure Chest Mine, S/023/028, Juab County, Utah

Date of Inspection: November 11, 1999

Time of Inspection: 1:50 p.m.

Conditions: Sunny

Participants: Tom Munson, Wayne Hedberg, DOGM

Purpose of Inspection: To visit the site while in the area.

We visited this Dugway Geodes mine site. It appears to be about 3 ½ - 4 acres in size. There are multiple pits in this area. There was no sign of recent activity at this site. Photos were taken to document the site visit.

About a mile away from this area is the exploration dig, which was started by Shane Crapo, but later taken over by Loy. This exploration site is closer to the Dugway Road. This exploration site is only several hundred feet in size, with a small mound of dirt. It is in an hummock area which they have dug up to check for geodes.

Photos were taken to document the site.
